Cinergy Field Takes on New Look in 2001

New "view" and new grass highlight a new experience for Reds fans for the 2001 season. by Dann Stupp

Although its destruction is inevitable, Cineroy Field has gotten the pampering of its lifetime. Slated for destruction in 2003, the Reds' 30-year-old stadium has been fixed up with some new features that will give fans a sneak peak of what Great American Ball Park will offer in two years.

The most noticeable change to Cinergy Field is what has been referred to as "the bite" taken from part of the stadium's outfield sections. The stadium was "bitten" to provide additional room so that construction could begin on Great American Ball Park, which will overlap a small section of where Cinergy Field is currently located. After O'Rourke Demolition Company removed lighting and roofing structures, a 12,500-pound wrecking ball gutted outfield sections of the stadium. This resulted in the loss of some 15,000 seats but the addition of a spectacular view.

Nearly 75 percent of last year's outfield seating has been removed. But fans sitting behind home plate not only have a great view of the game, but they can now see One Lytle Place, Firststar Center and the Clay Wade Bailey Bridge from within the stadium for the first time ever. Fans will also be able to see a large portion of Kentucky and the Ohio River from within the stadium. No longer resembling its traditional bowl shape, Cinergy Field now resembles a large horseshoe. And despite the removal of nearly the entire outfield seating sections, approximately 40,000 seats will still be intact for this season and next.

Perhaps the most exciting change to Cinergy Field (from both the fans' and players' perspectives) is the addition of a grass playing field. The stadium's outdated artificial turf has been replaced with 100,000 square feet of lush bluegrass sod. Ever since Cinergy Field

opened in 1970, players have been combating the bumps, bruises and burns that come with artificial turf. The long-awaited project, which began in November of 2000, was completed by

The new dimension configuration at Cinergy Field.

CINERGY FIELD DIMENSIONS

Workers began replacing Cinergy Field's artificial turf on November 11, 2000, with vibrant Kentucky bluegrass.

Cinergy, continued

the Cincinnati-based Motz Group, which laid down four grass fields for this past summer's Olympic Games in Sydney, Australia.

O'Rourke kicked off the project by stripping the playing surface of the existing turf and then removing the 5-inch asphalt foundation underneath. Motz then installed an irrigation system and constructed the playing surface, which will be similar to what Great American Ball Park will have when it opens two seasons from now. The project has provided a low-cost punch that's provided plenty of bang for the buck.

Fans will also notice a more intimidating look to Cinergy's warning track, which previously preceded 8-foot-high fences. But a 30-foot wall has been erected in straightaway centerfield and the power alleys now have 14-foot walls. This will compensate for the shorter distances (393 feet to center, 371 feet to the power alleys and 325 feet to left and right fields) from home plate to the home-run fences. A ball can now travel a shorter distance for a homer, but it's going to need a little more loft to clear Cinergy's new walls.

What will be missing from the fans' view are the bullpens. Traditionally players warming up in the pen have been within reaching distance of some fans in the blue seats, but the field had to be moved back 10 feet to accommodate construction of Great American Ball Park. So both the home and visitor's bullpens were relocated behind the right-field fences and are now accessible from the field.

Perhaps the most popular feature of the new-and-improved Cinergy Field will be the view of the Reds' future home. Throughout the next two seasons, fans will be able to see Great American Ball Park constructed from the ground up just outside the confines of the revamped and revived Cinergy Field.

The "bite" began back in August 2000 and eliminated some 15,000 seats from left to right-center field. The partial demolition was necessary so construction could begin on the Reds' future home - Great American Ball Park.

Cinergy Field From A-Z

Address and Phone Number: The Reds' Executive Offices are located at Cinergy Field on the West side of Level 3. Fans can reach the Reds via mail at 100 Cinergy Field, Cincinnati, OH 45202. To reach the Reds' Executive Offices by phone, please dial (513) 421-4510.

Alcoholic Beverages: The consumption of alcoholic beverages on Cinergy Field property (including inside motor vehicles) directly before, during or after Reds' games is prohibited by law, unless beverages are purchased from Sportservice and consumed within the stadium. Removal of alcoholic beverages from inside the stadium is strictly prohibited. State law prohibits the sale of alcoholic beverages to persons under the age of 21. Sale of beer at ballpark concessions stands is not permitted after the eighth inning and vendor beer sales will end in the middle of the seventh inning (both may be cut off earlier at the discretion of the club).

Animals: Pets are not allowed to enter Cinergy Field, with the exception of Seeing Eye dogs or other animal assistants to the physically challenged.

Autographs: Fans may seek players' autographs from the Blue Level seating area along the railing near the dugouts and field from the time the gates open until the end of batting practice. Cincinnati Nicknames Over the Years

The Cincinnati franchise began play in 1869 as the Red Stockings due, not surprisingly, to the color of their game hosiery. The club has undergone a few name changes over the years, first shortening the name to Reds, then briefly during the 1950s, being known as the Redlegs.

Opinions vary as to exactly when "Red Stockings" became shortened to just "Reds," but team histories refer to the club as Reds when the National League was founded in 1876, and by 1882, the more formal Red Stockings name was no longer in favor. In fact, instead of "Red Stockings," fans of that era might have been more likely to refer to the Cincinnati team as the "Porkopolitans," a reference to the city's (and the club hierarchy's) interest in the meat-packing industry.

During the 1950s, the era of Joseph McCarthy and the Red scare, the term "Red" was seen in a very different light. Thus during the seasons of 1953-58, the Cincinnati ballclub was called the Redlegs, so as not to give any appearance of an affiliation with Communism.

Reds Executives

2001 Cincinnati Reds

John L. Allen was named chief operating officer on October 1, 1999, following the purchase of a majority of the Reds' shares by a group of limited partners led by Carl H. Lindner.

On June 12, 1996, Mr. Allen was named "interim" managing executive when Reds' president and CEO Marge Schott relinquished her day-to-day control of the team, per an agreement with Major League Baseball. He was named managing executive on August 9, 1996.

Mr. Allen, who originally joined the organization in May 1995 as controller, has received widespread praise for his innovations in running the club. Baseball fans, baseball executives and the Greater Cincinnati community have responded warmly to his fan-friendly outreach and to the renewed sense of fun, excitement and history at Cinergy Field.

In January 1997, John spearheaded an effort to create Redsfest, a fan festival at the Convention Center downtown that has given fans in the Cincinnati community an opportunity to enjoy close interaction with the Reds' organization. Redsfest quickly became a Cincinnati winter tradition. More than 50,000 fans have enjoyed the event, which includes

John L. Allen
Chief Operating Officer

autograph and photograph opportunities with former and present Reds' players, question-and-answer panels, clinics and the chance to view Reds' memorabilia.

Mr. Allen has "put the focus back onto the playing field" rather than on the Reds' front office or on the business side of baseball. His agenda has included such fan-friendly activities as increased player contact for fans, the annual winter caravan, season ticket holder luncheons, decoration of the stadium, ticket discounts, "Stand By Your Red" and "Run the Bases." Each of the past five seasons has included a "Celebration of Diversity Day" to welcome and include fans of all backgrounds.

Under Mr. Allen's tutelage, special efforts have been made to recognize the organization's rich history. Replicas of the retired jerseys of Fred Hutchinson and Johnny Bench were displayed for the first time in a special ceremony on September 1, 1996. During the 1998 season, the organization retired the jerseys of Joe Morgan, Frank Robinson, and Ted Kluszewski. In 2000, uniform No. 24 of Tony Perez joined that group, while Dave Concepcion and Manager Sparky Anderson were enshrined in the club's Hall of Fame.

John began his baseball career in 1990 as an intern with the Columbus Clippers, the Class-AAA minor league affiliate of the New York Yankees, and subsequently named the club's director of business operations. While with the Clippers, he performed a wide variety of duties in addition to overseeing business operations. While in Columbus, he also earned a master's degree in sports management at

The Ohio State University.

John was born in Norton, KS, and graduated from Norton Community High School, where he participated in baseball, football, basketball and track. He served in Vietnam, where he was wounded in action and decorated for his efforts. Following active duty, he attended college on the G.I. Bill, and in 1974, earned his undergraduate degree at Kansas State University. John currently serves on the Finance Advisory Board at Kansas State.

Before he entered the baseball industry, Mr. Allen worked with the accounting firm of Arthur Andersen in Kansas City, MO, and also with GRA Inc. of Merriam, KS, where he was a partner and senior vice president.

Mr. Allen has been honored with the Certificate of Friendship from the Cincinnati Human Relations Commission and the Community Service Award from the Talbert House. He also has been honored by *Cincinnati Magazine* in its annual "Best of Cincinnati" issue.

Mr. Allen is a lifetime member of the American Legion and Disabled American Veterans organizations. He is also on the Board of Directors of the Dan Beard Council of the Boy Scouts of America and serves on the Kid Glove Committee. In 2000 he was the honorary game chairman for the Kid Glove game at Cinergy Field.

John and his wife, Anna, reside in Covington, KY. John has a son, Christopher, and a daughter, Sarah.

John Allen has initiated many exciting programs during his tenure with the Reds, including the retirement of several uniform numbers of legendary Reds.

In January 1997, John Allen spearheaded an effort to create Redsfest, a fan festival at the Convention Center downtown that has given fans in the Cincinnati community an opportunity to enjoy close interaction with the Reds' organization. Redsfest quickly became a Cincinnati winter tradition. More than 50,000 fans have enjoyed the event, which includes autograph and photograph opportunities with former and present Reds' players, question-and-answer panels, clinics and the chance to view Reds' memorabilia.

Reds Executives

2001 Cincinnati Reds

The 2001 season is Jim Bowden's ninth as general manager of the Reds. On October 8, 1998, he signed a four-year contract extension that will keep him in Cincinnati through the 2003 season.

On October 16, 1992, Jim made baseball history when, at the age of 31, he became the youngest person ever named to a Major League Baseball general manager's position. Among big league GMs since then, Mr. Bowden's 639 victories rank second only to the 763 wins of Atlanta's John Schuerholz.

Considered one of the brightest and most innovative minds in the game of baseball today, Mr. Bowden has kept the Reds competitive despite its small-market stature. In the last three seasons, the Reds' 258-229 (.530) record is eighth-best in the Major Leagues, while in that same time frame their payroll was 24th-lowest of all 30 teams. Following the 2000 season, *Baseball America* ranked the organization's minor league system as the third-best in baseball.

Jim helped guide the Reds to a pair of National League Central Division titles (1994, 1995), and in 1995, at the age of 34, he became the youngest GM in baseball history to guide his club into the League Championship Series. Following that '95 campaign, a season in which he made several successful roster moves that propelled the Reds

James G. Bowden IV

General Manager

into post-season play, Jim was selected by *USA Today* baseball beat writer Rod Beaton as the National League's Executive of the Year.

Following the 1999 season - when the Reds finished 96-67, its highest victory total since 1976, and forced a one-game playoff with the Mets for the final NL Wild Card spot - Mr. Bowden was named Executive of the Year by *Baseball America*, the Boston chapter of the prestigious Baseball Writers Association of America and the Touchdown Club of Columbus. He also was named 1999 National League Executive of the Year by national baseball writer Jon Heyman of *Newsday* and 1999 Major League Executive of the Year by Mike Mittleman of Stats, Inc. *USA Today Baseball Weekly's* Bob Nightengale wrote, "Jim Bowden is the best wheeler-dealer in the business."

Mr. Bowden has always been known to pull the trigger on big deals, a character trait that received worldwide attention on February 10, 2000, when he pulled off one of the biggest trades in baseball history by acquiring from the Seattle Mariners Cincinnati native Ken Griffey Jr., a 10-time All-Star and the youngest member of Major League Baseball's All-Century Team. He helped build the successful '99 team with similar bold moves, by consummating blockbuster trades with Atlanta, San Diego and the Chicago White Sox that brought to Cincinnati such high-profile players as former 20-game winner Denny Neagle, power-hitter Greg Vaughn and speedy outfielders Mike Cameron and Michael Tucker.

The Reds won back-to-back National League Central division titles in 1994 and 1995 in large part to the timely starting

pitching Jim acquired in David Wells, John Smiley, Pete Schourek, Mark Portugal and Dave Burba. The 1999 Reds were based on the same principle as Jim blended together a promising staff of solid veterans and young talent through trades, free agency and the draft.

In 1999, veteran Pete Harnisch tied his career high with 16 victories and led the club in that category for the second straight season. Neagle went 6-0 in his last 7 starts of the season, while Juan Guzman, acquired at the trading deadline from Baltimore, went 6-3 in 12 starts as the Reds, Astros and Mets battled for a playoff berth. All-Star Scott Williamson was named NL Rookie of the Year after posting 19 saves and establishing a club rookie record for relief wins with 12. Eleven-time All-Star Barry Larkin won his ninth Silver Slugger Award, Vaughn became the only Reds player in history with 40 HR, 100 RBI and 15 stolen bases, and Eddie Taubensee put together one of the finest offensive seasons ever by a Reds' catcher. Trade acquisition Sean Casey and farm products Aaron Boone and Gold-Glover Pokey Reese gave Cincinnati one of the best young infields in baseball.

Jim has made the most of the club's "small market" stature over the years by remaining consistent with the philosophy of adding tremendous young talent through trades and the draft. Since 1997, Jim has acquired productive young players such as Griffey, Casey, Dmitri Young, Danny Graves, Dennys Reyes, Juan Castro, Alex Ochoa and Seth Etherton while drafting the talented John Riedling, Jason LaRue, Reese, Boone and Williamson. Recent draft picks like Austin Kearns, Adam Dunn and Gookie Dawkins are progressing rapidly through the minor leagues. Jim made baseball history following the 2000 first-year player draft when he signed first-round pick David Espinosa and second-round pick Dane Sardinha without signing bonuses.

Known for his aggressive nature when seeking talent, Jim has a tremendous track record when taking chances. In 1996 and 1997, the Reds produced the NL saves leaders and Rolands Relief Man points winners in Jeff Brantley (1996) and Jeff Shaw (1997). In both instances, the players were signed without having any prior closing experience.

In 1994, Jim gambled and signed OF Ron Gant after the slugger had been released by the Atlanta Braves when he broke his leg in an off-season motorcycle accident. Gant went on to hit .276 with 29 HR and 88 RBI in 1995 while earning NL Comeback Player of the Year honors. Jim also acquired LHP Pete Schourek as a waiver claim that season. Schourek would go on to finish second in the 1995 NL Cy Young Award voting behind Atlanta's Greg Maddux. Jim rolled the dice again in 1996, coaxing OF Eric Davis out of retirement. Davis also earned the NL Comeback Player of the Year Award after hitting .287 with 26 HR and 83 RBI. Jim found another "comebacker" in 1998, when he signed Harnisch, who has won 38 games the last 3 seasons.

One of the very best in the game at adding quality veteran performers at the right time, Jim has always produced when the club has needed it the most. In the heat of the pennant race in 1995, Jim made two blockbuster deals two days apart that brought to the Reds some much-needed starting pitching. David Wells was acquired from the Tigers, and pitchers Dave Burba and Mark Portugal from the Giants. The threesome combined to win 18 games as the Reds pulled away from the Houston Astros.

Jim began his career in 1984 with the Pirates and spent 1985-88 as the club's assistant director of player development and scouting. In 1989, he moved to the Yankees as assistant to the senior vice president for baseball operations. In 1990, he joined the Reds as an administrative assistant for both scouting and player development, and in August 1991, he was promoted to director of player development. After he was named general manager in 1992, he also assumed the duties of president and CEO during majority owner Marge Schott's absence from the club.

A native of Weston, MA and Boothbay Harbor, ME, Mr. Bowden was born May 18, 1961. He is a 1979 graduate of Weston (MA) High School and 1983 graduate of Rollins College. Following the '99 season, Mr. Bowden was inducted into the Rollins College Sports Hall of Fame and received the school's 17th Athletic Achievement Award. He graduated from Rollins with a bachelor's degree in business administration/communication and 10 years later received the Young Alumnus Special Achievement Award.

Jim has five sons: J.B. (3/10/87), Tyler (7/7/91), Chad (2/17/94) and identical twins Trey and Chase (10/20/98).

Reds Executives

2001 Cincinnati Reds

Darrell "Doc" Rodgers, one of baseball's most highly regarded young executives, is in his 17th year in professional baseball and his 13th year in the Cincinnati Reds' organization.

He has been the club's assistant general manager since January 21, 1997, when he was named the baseball department's top assistant to General Manager Jim Bowden. On November 26, 1998, Mr. Rodgers signed a four-year contract extension through 2002.

Doc assists Mr. Bowden in all areas of Major League operations, including the day-to-day operation of the big league club, player trades, free-agent acquisitions and contract negotiations. He oversees player development and scouting and has led the Reds' charge into the international scouting arena. The past two summers Rodgers has dedicated a portion of his time to international baseball. In 1999 he served on the Selection Committee for the USA Pan American Baseball team that captured the silver medal. This past summer Doc was a member of the USA Olympic Baseball Steering Committee that put together the Olympic gold-medal-winning USA baseball team.

Under Mr. Rodgers' direction, the Reds have established baseball academies in both the Dominican Republic and Venezuela. Each year, Doc also scouts and evaluates the top pitchers available in the June amateur free-agent draft.

Darrell Rodgers

Assistant General Manager

Doc began his front office career in 1993 as the Reds' assistant for baseball operations, a position he held through 1995. In 1996, he served as the director of baseball administration for the Detroit Tigers and then returned to the Reds in 1997 as assistant to the general manager.

Before he joined the Reds' office, he spent the 1991 and 1992 seasons as the pitching coach for the organization's Appalachian League Rookie affiliate in Princeton, WV.

Prior to that coaching stint, Doc pitched in the minor leagues for six years. He signed his first professional contract with the San Francisco Giants in 1985 and three years later was traded to the Reds. In 1989, he advanced to Class-AA Chattanooga of the Southern League, and in 1990, completed his playing career with Nuevo Laredo of the Mexican League.

Doc was drafted three times (1981, 1984, 1985) before signing with the San Francisco Giants in 1985. His minor league highlights included league championships in 1987 with Fresno of the California League and in 1988 with Cedar Rapids of the Midwest League. He was named the Northwest League's Topps Player of the Month for July 1985 and the 1985 Topps Player of the Year in the Northwest League. He also was named a Midwest League All-Star in 1988.

Even with all his personal successes on and off the field, Rodgers considers his most significant contributions to the game of baseball to be the mentoring he has provided to former Reds' employee Muzzy Jackson (assistant general manager, Kansas City Royals) and current Reds' employee De Jon Watson (major league scout). Under Rodgers' guidance Jackson has made a quick climb from assistant director of player development and scouting to director of player development and to his current position as assistant general manager with the Royals in three short years. De Jon Watson has made a very similar ascent to the top under Rodgers' guidance, starting as an assistant to baseball operations, rising to scouting director and now working as a major league scout. These two gentlemen are examples of one Rodgers' strongest beliefs "Each one must reach one and teach one".

As one of few high-level minorities in Major League Baseball and one who has worked closely with the general manager on a day-to-day basis his entire front office career, Rodgers has gladly assumed the role of mentor, educator, and role model for many of his minority colleagues in professional baseball.

Doc, 38, graduated with a journalism degree from the University of Oklahoma in 1985. He received his master's degree in sports management from the University of Oklahoma in May 1994.

Doc and his wife, Dorothy, attend Lincoln Heights Missionary Baptist Church, and reside in Cincinnati with their daughter Jazmine Nicole.

2000 "Red Seat" Homer Club

The 2000 season saw four more home runs reach the upper deck in Cincinnati's Cinergy Field, bringing the all-time list to 34.

1

Mark McGwire hit the longest home run ever recorded at Cinergy Field on May 5, 2000, when his 473-foot blast off Reds' pitcher Ron Villone sailed into the Red seats in left field. McGwire broke the distance record held by Cincinnati's Eric Anthony, who hit a 465-foot bomb off Florida's Terry Matthews on June 25, 1995.

2

Preston Wilson became the first-ever Florida Marlin to reach the upper deck in Cinergy Field, when he launched a 437-foot shot off the Reds' Rob Bell on May 27, 2000.

3

Moises Alou became the first Houston Astro to reach Cinergy's upper deck after tagging Cincinnati pitcher Steve Parris for a 414-foot shot on July 26.

4

Dmitri Young was the only Reds player to reach the upper deck in 2000, but did it in grand fashion. Dmitri became only the second Red to ever reach the upper deck with a grand slam homer. Young's 448-foot missile came off Philadelphia's Randy Wolf on August 21. Tony Perez (8/11/70 off the Mets' Jim McAndrew) is the only other Red to accomplish the feat.

Another Golden Effort

Following the 2000 season, Reds second baseman **Pokey Reese** won his second consecutive Rawlings Gold Glove Award...he was the only Reds player honored...Reese (1999-2000), **Bret Boone** (1998), **Tommy Helms** (1970-71) and Hall of Famer **Joe Morgan** (1973-77) are the only second basemen in franchise history to win baseball's most prestigious award for defensive excellence...in the last 2 years, his first seasons as a full-time second baseman, Reese established himself as one of baseball's premier players at that position...in 2000, he ranked among the National League leaders at second base with a .980 fielding percentage and did not commit an error in his last 21g, his longest errorless streak of the season...in 1999, he played second base on a regular basis for the first time in his career, put together a career-high 67-game errorless streak (4/28-7/17) and finished the season ranked third among NL second basemen with a .991 fielding percentage.

Cincinnati Reds History

Written by Greg Rhodes, author and baseball historian.

Immediately following the Civil War, baseball enjoyed a nation-wide boom and several amateur teams formed in Cincinnati, including the Cincinnati Base Ball Club (CBBC), the forerunner of today's Cincinnati Reds Baseball Club. The club, originally nicknamed the "Resolutes," was formed on July 23, 1866, but did not play a regular schedule of games until the next summer.

The club hired Harry Wright - a cricket player from New York - to oversee club operations, and Wright proved to be the right choice. Wright developed new strategies and practice regimes that were soon adopted by other clubs. He also was the first to advocate the knicker-style trousers for players, and his choice of team colors created the team nickname. In 1868, the club appeared in short pants with bright red socks, and quickly became known as the "Red Stockings."

Since 1871, baseball teams have always appeared in knicker-style uniforms, and the official Cincinnati nickname has always been some variation of "Reds."

But the most radical innovation the CBBC introduced was the all-professional team in 1869. By 1868, Cincinnati had become the top club west of the Alleghenies, but they could not compete with the established clubs on the East Coast. The club needed to find better players, and club President Aaron Champion argued for an all-salaried nine. While other clubs, especially in New York and Washington, had

Harry Wright was captain of the Red Stockings in 1869.

paid some players under the table, the Red Stockings were the first to openly declare themselves a professional "nine." (The term "nine" was often used because in fact there were just nine players on a team. Teams occasionally carried one substitute, but he would play only in an emergency.) Harry Wright recruited several excellent players from the East, including his younger brother, George - the best player in the country. Both George and Harry Wright were ultimately elected to the Hall of Fame.

In 1869, the Cincinnati Base Ball Club played the entire season with all of its players under contract. The total salary outlay was approximately \$11,000, with the salary of star shortstop George Wright nearly \$2,000. Thus began the era of professional baseball - and of professional team sports.

Many baseball people and the sporting press thought the decision to employ players would backfire. They did not think the public would accept the idea of paying men to play a game. But the Red Stockings played at such a high level of skill and conducted themselves in such a "gentlemanly" fashion on and off the field - inspired in part by an abstinence pledge drafted by Champion and supported by the virtuous Wright - that by the end of the '69 season, there was no doubt that the professional game would prevail.

The 1869 Red Stockings made history not only as the first professional club, but they also ran off the longest winning streak in baseball history. Although there was no league yet established, there were some 15 teams in the upper tier of clubs. The Red Stockings defeated all of these teams -

many of them twice - and they also walloped a number of lesser clubs. Their final official record was 57-0. (The Red Stockings played and won many more games than this, but these games would be considered exhibition games today. Harry Wright counted only those games against other sanctioned clubs as official. Thus, some record books list a much higher number of games won by the Red Stockings.) The club retained all of its players for 1870, and the club ran its unbeaten streak to 81 games before it was defeated by the Brooklyn Atlantics, 8-7 in 11 innings, before 10,000 spectators in New York.

The team finished the 1870 season with a record of 68-6, but the club lost money and the officers elected to disband the professional nine. Although the first professional league formed in 1871 - the direct result of the success of the Red Stockings - Cincinnati was not part of this new league.

Baseball's first team comprised entirely of paid players was the 1869 Cincinnati Red Stockings

REDS 1876-1899

The Cincinnati club, under new management, rejoined the professional ranks in 1876 when it became a charter member of the new eight-team National League. The Reds, along with the Chicago Cubs, are the only charter members of the National League still playing in the NL.

These new Reds had none of the magic of the pioneering Red Stockings. The best finish they could muster in their first five seasons was second in 1878. During these first years in the National League, the Reds' stars were outfielder Charlie Jones and pitcher Will White, who still holds the Major League record for most starts in one season - 75.

William White

White set the club record for most wins in the same season (1879) with 43. This was the era of underhanded pitching, and White pitched nearly every game. Despite the Reds' celebrated past as founders of professional baseball, the National League kicked Cincinnati out after the 1880 season. The reason: the club sold beer and rented its grounds to amateur teams on Sundays, both practices in violation of league rules.

In 1882, after one season on the sidelines, the Reds became one of the founding members of the American Association, the first league to successfully challenge the established National League. Although the Association was not related to the American League (which formed in 1901), the Association is considered a second major league and its records are official in the eyes of Major League Baseball. The Reds featured pitcher White and a young second baseman named Bid McPhee. McPhee led the Reds with his brilliant defensive play and solid offense and holds several 19th century records. He played 18 consecutive seasons with the Reds, a mark later broken by Dave Concepcion.

The Reds won the Association pennant in 1882, and split a brief two-game post-season exhibition series with Chicago, winners of the National League. Some consider this the first "World Series," in that it was the first time winners of two leagues met in post-season play.

Prior to the 1884 season, the Reds faced a ballpark crisis. A new and short-lived league, the Player's League, formed in the offseason, and the Cincinnati entry grabbed the lease on the Reds' ballpark, which was located on Spring Grove Avenue, near Spring Grove Cemetery. The Reds scrambled to find a new location, and wound up in an empty brickyard at the corner of Findlay Street and Western Avenue - where they would remain for the next 86 years. In just three months, the club erected a new wooden grandstand, and smoothed out a playing field, except for one spot. There was a steep incline deep in the outfield that seldom came into play and the club left it as it was. In the 20th century, as the bats became more lively and balls soared deep into the outfield, this incline, now called the "terrace," became a well-known Crosley Field landmark.

The Reds rejoined the National League in 1890, and began three decades of frustration. Over the next 29 years, the Reds never finished higher than third. Typically, interest in the Reds peaked on Opening Day. Business manager Frank Bancroft (1892-1920) took full advantage of the tradition of the Reds opening at home, and he promoted the event with parades and bands - a tradition which eventually spawned the Findlay Market parade and Cincinnati's annual Opening Day "holiday."

1900-1920

In the first decade of the 20th century, the Reds featured some outstanding players, including pitcher Noodles Hahn, outfielder Cy Seymour and National League stolen base champion Bob Bescher. But the Reds usually finished in the lower half of the eight-team league and the most interesting developments occurred off the field. Early in the morning of May 28, 1900, the main grandstand of League Park, the Reds' home field at Findlay and Western, burned. The club moved home plate where the right-field corner was, built temporary stands and finished the season. The charred ruins of the old stands remained in deep left field until 1902 when a fabulous new iron and concrete grandstand opened (and home plate was moved back to its "correct" location). The grandstand, nicknamed the "Palace of the Fans," was unique; a blend of Roman and Greek styling that had never been used before in a grandstand, and has never been seen since.

The 3,000-seat grandstand featured 19 "fashion boxes" along the front railing that could hold 15 or more well-heeled fans. Beneath the grandstand, at field level, was standing room for 640 more spectators in a rowdy section known as "Rooter's Row." On Opening Day, 1902, some 10,000 spectators crowded into the park and watched the Reds lose to the Chicago Cubs, 6-1.

During the 1902 season, owner John T. Brush, an Indianapolis businessman who had owned the Reds for over a decade, sold the club for \$150,000 to a local group headed by city official Garry Herrmann. Herrmann's high-profile job as manager of the water works, his magnetic personality and his fondness for a big party, made him a well-known and well-liked character. But the fun-loving Herrmann proved to be a wise and thoughtful steward of the club. His fellow owners voted him to a leadership role in the National League, and he chaired baseball's governing body, the National Commission, for 16 years.

After the 1911 season, Herrmann determined that the Palace of the Fans was too small for the growing interest in baseball. The stands were demolished and all new stands constructed in time for the 1912 opener. This was an era of new ballparks - Forbes Field, Comiskey Park, Ebbets Field and Wrigley Field all opened about the same time. Most were named after the club's owner, but Herrmann declined the honor, opting for "Redland Field," a nickname that had often been applied to the old park. The new brick stands, with the bleachers beyond the right-field fence, and a steep terrace in left field, seated 20,000 spectators. When Powel Crosley bought the Reds in 1934, he renamed the

park "Crosley Field."

The new ballpark did not inspire the Reds; the team finished fourth in 1912 and sunk all the way to last in 1914. But in 1916, Herrmann found a new manager who helped turn the Reds around - Hall of Fame pitcher Christy Mathewson. Mathewson's Reds climbed to third by 1918, but when Mathewson was injured in World War I, the Reds hired Pat Moran. Moran added several new players to a lineup that already included Hall of Famer Edd Roush and Heinie Groh, and the Reds beat the favored Giants to win the 1919 pennant. Their winning percentage was .686 - the equivalent of 111 wins in a 162-game schedule - the best in club history.

Despite their regular-season success, the Reds were underdogs to the Chicago White Sox, led by "Shoeless" Joe Jackson. But on the eve of the Series, the betting odds suddenly shifted in favor of the Reds. Rumors swirled around the opening game in Cincinnati that a fix was in. But the games were played without obvious incident, or so it seemed.

The Reds beat the White Sox, but a year later eight Chicago players admitted to participating in a plot to fix the Series. Several Reds, including Edd Roush, claimed that they never saw any suspicious behavior; in Roush's words, "One thing that's always overlooked in this whole mess is that we could have beaten them no matter what the circumstances. The 1919 Cincinnati Reds were better!"

The Reds featured two Hall of Famers in their lineup for much of the 1920s, centerfielder Edd Roush and pitcher Eppa Rixey. The Reds finished second in 1922, 1923 and 1926, but could not repeat the success of 1919. Two tragedies marred the 1924 season. Manager Pat Moran died suddenly from liver failure during spring training, and the popular captain and first baseman of the Reds, Jake Daubert, passed away at the close of the season. Daubert had been beamed in May and suffered from insomnia. His condition weakened the rest of the season. He died in October after an emergency appendectomy.

As the 1920s drew to a close, owner Garry Herrmann put the club up for sale. Sidney Weil, a Cincinnati businessman, eventually bought control of the club, but he lost much of his money in the stock market crash of 1929. Strapped by the lack of cash, Weil's Reds soon landed in the cellar.

The 1930s began with the Reds in last place, but concluded with the team winning the National League pennant. Although Weil was unable to invest much in the club, he did make two outstanding trades, bringing future Hall of Famer Ernie Lombardi and pitcher Paul Derringer to the Reds in the early 1930s. Eventually, Weil was forced to sell the club, and broadcasting magnate Powel Crosley bought control in 1934. One of the first moves the entrepreneurial Crosley made was to put his name on the ballpark. "Redland Field" became "Crosley Field" on April 16, 1934.

Crosley joined forces with his energetic and visionary General Manager Larry McPhail to rescue the Reds. In the process they transformed baseball. In 1935, McPhail and Crosley persuaded the commissioner and other owners to allow the Reds to stage seven night games. The Reds had averaged only 2,700 fans a

Bill McKechnie

game in 1934, and McPhail thought night baseball would provide desperately needed revenue. The first game was held on May 24, 1935, with 20,422 fans marveling at the 632 bright lights on eight tall towers. The Reds beat the Phillies, 2-1. The players found the illumination satisfactory, although there were some dark shadows in the outfield. But McPhail's experiment worked - the Reds averaged 18,000 fans in their seven night games, while averaging just 4,600 in their day games.

Two other dramatic events highlighted the 1930s. In January 1937, the worst flood in Cincinnati history inundated Crosley Field when water flowed over the outfield walls. In the most famous stunt in Reds history, pitchers Gene Schott and Lee Grissom, rowed a boat down Western Avenue and over the wall. In 1938, Johnny Vander Meer set a Major League record when he pitched consecutive no-hitters; the

second one coming against Brooklyn in the first night game ever played at Ebbets Field.

In 1938, the Reds hired Bill McKechnie to be their new manager. McKechnie's Reds made a dramatic leap in the standings from eighth to fourth, and led by the pitching of Derringer and Bucky Walters, and the hitting of Lombardi, Frank McCormick and Ival Goodman, the Reds won their first pennant in 20 years in 1939. The clinching game came against the second-place Cardinals on September 28, a thrilling 5-3 victory that ranks among the most dramatic games ever played at Crosley Field. But the Reds collapsed in the Series, swept by the powerful Yankees. Game Four in Cincinnati featured a 10th-inning collision at home plate between the Yanks Charlie Keller and Lombardi. "Lom" was knocked unconscious and lay prone at the plate while Joe DiMaggio scored the go-ahead run. Sportswriters reported on Lombardi's "snooze," an image that haunted the big catcher until his death.

REDS 1940's

The Reds won 100 games in 1940, then a franchise record, and won the pennant by 12 games over the second-place Brooklyn Dodgers. The pennant race was marred by the shocking suicide by backup catcher Willard Hershberger on August 3 in a Boston hotel. Hershberger remains the only player in Major League history to commit suicide during a season.

the power of the Detroit Tigers. But the Reds chances looked dim when injuries put Lombardi and second baseman Lonnie Frey on the bench. But Bucky Walters and Paul Derringer pitched four complete-game victories, and 40-year-old coach Jimmy Wilson hit .353 subbing for Lombardi. Derringer won the deciding seventh game at Crosley Field, the only time in club history the Reds have won a World Championship at home. Frank McCormick was named National League MVP, following Lombardi (1938) and Walters (1939). The Reds became the first team to have three different players win the MVP in consecutive years.

The 1941 Reds finished third and the club remained competitive until 1944 when the impact of aging players and roster losses due to World War II enlistments took their toll. Many teams scrambled to find promising players, and the Reds even recruited a high-school pitcher, 15-year-old Joe Nuxhall. The Hamilton, Ohio, native made baseball history as the youngest player to appear in a big-league game on June 10, 1944. He pitched two-thirds of an inning against St. Louis, giving

up five runs on two hits and five walks. It was Nuxhall's only appearance in 1944, but he returned to the Reds in 1952 and wound up with 130 wins, ninth on the Reds all-time list.

REDS 1950's

There were no Cincinnati pennants won in the 1950s - in fact the team had only two winning seasons - but many who remember Crosley Field consider the '50s to be the ballpark's golden era. By the end of the decade, parking nightmares and the demolition of the surrounding neighborhood had stolen much of Crosley's charm, but the '50s hearken memories of afternoons at the ballpark, the Sun Deck bleachers and the "Goat Run" - the temporary seats installed in front of the right-field fence.

The 1950s began with the Reds mired in the second division and their only highlight - the emergence of a young first baseman named Ted Kluszewski. In 1954, "Klu" nearly won the triple crown, leading the league in home runs, RBIs, and finishing fifth in batting average. Klu, who had the biceps of an ex-football player (which he was), began cutting off the sleeves of his jersey. The club eventually adopted the look, introducing a new sleeveless vest top in 1956. The Reds returned to this style in the 1990s.

The club acknowledged the emergence of the African-American ballplayer with the appearance of Chuck Harmon in 1954, seven years after Jackie Robinson had integrated the Major Leagues. The club slowly added other black players, and in 1956, Frank Robinson became the Reds' first black superstar (and its first Rookie of the Year). Robinson quickly established himself as a future Hall of Famer with his consistent offense - he averaged 32 home runs and 101 RBI in his 10 seasons with the Reds. He led an offensive explosion in 1956 when the club tied the Major League home run record with 221. The Reds chal-

lenged for the NL pennant until the last week of the season, finishing third - their best finish since 1944. Manager Birdie Tebbetts deserved much of the credit for turning the club around, but even Tebbetts could not overcome the weak pitching and by 1959 Fred Hutchinson was the new skipper.

The 1950s are also remembered for the change in the club nickname, the result of the anti-Soviet Union hysteria that equated anything red with the "Reds" of the communist world. The team officially became the "Redlegs" for several seasons but returned to the traditional name by the end of the decade.

REDS 1960's

Powel Crosley

The 1960s began with the sad news that long-time owner Powel Crosley had died of a heart attack. New owner Bill DeWitt took over the club in 1961 and along with Manager Fred Hutchinson, made several moves which all proved successful. The result was a surprise pennant, the "Ragamuffin Reds" of 1961. Led by Frank Robinson, Vada Pinson and the pitching of Joey Jay and Bob Purkey, the Reds beat out the Los Angeles Dodgers for the pennant, but then lost to the Roger Maris-Mickey Mantle led Yankees, four games to one.

The Reds suffered two significant set backs in the mid-60s with the loss in 1964 of the 45-year-old Hutchinson to cancer, and the ill-fated Frank Robinson trade in 1965. But the Reds racked up a decade-long winning percentage of .537, the best in club history to that point. The club nearly won the pennant in 1964, being eliminated on the last day of the season, and challenged for the pennant in 1965 and 1969. Much of the success could be attributed to the remarkable string of new talent, led by Rookies of the Year Pete Rose (1963), Tommy Helms (1966) and Johnny Bench (1968). Lee May, Tony Perez and Jim Maloney also debuted in the 1960s. Maloney threw three no-hitters in the 1960s and became the Reds' all-time strikeout leader.

In the mid-60s, debate intensified over a new Reds ballpark. For the first time in club history, a Reds ballpark would be built with public funding - a trend rapidly sweeping the sports world. DeWitt favored a suburban location and a baseball-only field, but when the Cincinnati Bengals were awarded a National League Football franchise in 1966, civic leaders wanted a multi-purpose stadium on the riverfront. DeWitt eventually sold the club rather than approve the lease for Riverfront Stadium. His successors, led by Cincinnati Enquirer publisher Frank Dale, signed a 40-year lease and in 1967 hired Bob Howsam to be the new president and general manager. The stage was set for the emergence of the Big Red Machine, and the greatest decade in Reds history.

REDS 1970's

The new decade opened with a farewell to Crosley Field on June 24, 1970, (and a 5-4 Reds victory) and the dedication of Riverfront Stadium on June 30 (an 8-2 loss to the Braves). Two weeks later, in the first of many memorable moments at Riverfront, Pete Rose bowled over Cleveland catcher Ray Fosse to score the winning run in the 12th inning of the All-Star Game.

Bob Howsam made several key personnel moves in the 1970s to bolster the foundation of Rose, Bench and Perez that DeWitt left him. None was

more important than the hiring of the then-unknown George "Sparky" Anderson to manage the team. Anderson led the Reds to a Western Division crown (the National League had been divided into East and West divisions in 1969), and a pennant in 1970, but the Reds lost the World Series to Brooks Robinson and the Baltimore Orioles.

The Reds returned to post-season play in 1972, buoyed in part by the epic trade that brought Joe Morgan, Jack Billingham, Denis Menke and Cesar Geronimo to Cincinnati and the emergence of Dave Concepcion as the starting shortstop. In Game 5 of the NLCS against Pittsburgh at Riverfront, Bench's stunning ninth-inning home run tied the game, and the Reds won the pennant moments later when George Fos-

ter scored on a wild pitch. The Reds lost a tawty seven-game World Series to the Oakland A's.

In 1973, the favored Reds lost to the Mets in a bitter playoff struggle that featured a brawl between Rose and the Mets' Bud Harrelson in Game 3, and a riot at Shea Stadium at the conclusion of Game 5. Although the Reds won 98 games in 1974, they lost the division crown to the Dodgers and many wondered if the Big Red Machine would ever win a World Series.

After a slow start in 1975, Anderson made a series of brilliant lineup moves that created the fabled Big Red Machine starting lineup. He

moved Rose from the outfield to third base, allowing George Foster to start in left field. He made Ken Griffey his starting right fielder and moved him to the number two spot in the lineup, pushing Morgan to third. The result was what many have called the greatest starting eight in the history of the game - Rose, Griffey, Morgan, Bench, Perez, Foster, Concepcion and Geronimo. The revamped Reds set a franchise record with 108 wins in 1975. They defeated the Red Sox in one of the best World Series of

all time. Game 6 featured the memorable home run by Carlton Fisk in the 12th inning; in Game 7, the Reds rallied from a 3-0 deficit on a two-run homer by Perez and a ninth-inning, game-winning single by Morgan.

In 1976, the Reds again topped the century mark in wins with 102, and swept through the post-season, winning seven straight games, including a dramatic ninth-inning, come-from-behind victory over the Phillies in the NLCS, and a four-game sweep of the Yankees. The 1976 Reds led the Major Leagues in ten offensive, defensive and pitching categories (runs scored, doubles, triples, home runs, batting average, slugging average, stolen bases, fewest errors, fielding percentage and saves), a domination that has never been matched.

The Big Red Machine also dominated the awards voting in the 1970s—the starting eight won six MVP awards, 26 Gold Gloves, and earned 63 All-Star selections. In addition, the team set attendance records, topping the two-million mark for the first time in 1973, and establishing the single-season mark of 2,630,000 in 1976.

But the Big Red Machine would never win another title. A series of unpopular moves gutted the team. Perez was traded in 1977; Anderson was fired after the 1978 season and Rose was let go as a free agent. Although the Reds acquired Tom Seaver in 1977, and won a division crown under new Manager John McNamara in 1979, the Big Red Machine era was over. But Howsam, Anderson and the "Great Eight" left a legacy that will never be forgotten, and - in the era of high-priced free agency - may never be equaled.

REDS 1980's

The Reds went on a roller-coaster ride in the 1980s, both on and off the field. They had the best record in baseball in 1981, but did not appear in the post-season because of an odd split-season format necessitated by a mid-year strike. The Reds finished second in both halves of the season, and were thus ineligible for post-season play. The Reds sunk to last in 1982, losing over 100 games (101) for the first time in club history. The unpopular Dick Wagner, who had replaced Howsam in 1978, was fired and Howsam returned to run the club. He restored fan enthusiasm when he brought Pete Rose back to Cincinnati in 1984 as player/manager and signed the Reds' first significant free agent, Dave Parker.

In late 1984, Marge Schott purchased the Reds and quickly established herself as the club's number one booster. She became a very visible and popular owner, signing hundreds of autographs at home games from her seat behind the Reds' dugout.

Rose provided a moment for the ages at Riverfront Stadium in 1985 when he stroked "4,192", breaking Ty Cobb's Major League record.

Rose also proved to be an inspired choice for manager. He developed several young players, including Barry Larkin, Eric Davis and Paul O'Neill, and led the Reds to four consecutive second-place division finishes. One

4192

of his young pitchers, Tom Browning, produced one memorable night at Riverfront on September 16, 1988, when he pitched the first perfect game in Reds history.

But Rose hit rock-bottom in the summer of 1989 when Major League Baseball investigated him for gambling on baseball. The commissioner's office and Rose eventually negotiated a settlement for a lifetime ban from the sport, with a provision for reinstatement after one year (although no finding was made with regard to the gambling charges).

1990's

The decade began with one of the most remarkable seasons in Reds history. New Manager Lou Piniella inherited Rose's young talent and General Manager Bob Quinn made several successful trades, adding Randy Myers, Hal Morris and Billy Hatcher. The Reds broke out of the gate with nine straight wins and never lost the lead in the NL West, making them the first club to go wire-to-wire in a 162-game season. Jose Rijo, Tom Browning and Jack Armstrong led the starters; Randy Myers combined with Rob Dibble and Norm Charlton to form the "Nasty Boys," baseball's most dominating bullpen. Eric Davis, Chris Sabo, Paul O'Neill and Barry Larkin led the offense. After edging the Pirates in a tense six-game NLCS, highlighted by the tremendous outfield defense of Cincinnati, the Reds shocked baseball by sweeping the favored Oakland A's. Led by Jose Rijo's two wins - he was named Series MVP - and the hitting of Sabo and Hatcher, the Reds pulled off one of the biggest upsets in World Series history.

The Reds opened the 1990s by sweeping the mighty Oakland A's 4-0 to earn their only World Series championship of the decade.

But Piniella was unable to win another title and he was replaced in 1993 by the popular Tony Perez. But after the Reds stumbled out of the gate, the new general manager, Jim Bowden, announced Perez's firing after just 44 games, and the hiring of Davey Johnson. It was a rough baptism for the young Bowden, but he quickly established himself as one of the most successful GMs in baseball. In an era of booming payrolls, the small-market Reds found it difficult to compete with their better-financed brethren. Cost-cutting moves in the 1980s had left the Reds' farm system depleted, and so Bowden turned to free agents and trades to build the team. In 1994, the Reds were in first place when the owners ended the season early in a labor dispute, and canceled the post-season.

Barry Larkin

In 1995, the National League was divided into three divisions, and the Reds won the new NL Central. The Reds swept the Dodgers in the first round of the playoffs, but were swept by the Braves in the NLCS. Shortstop Barry Larkin was named the league's MVP that season, after batting .319 with 15 homers and 51 stolen bases.

In 1996, Larkin surpassed his 1995 performance as he became the first shortstop in Major League history to hit 30 or more homers and steal 30 or more bases in a single season. After surpassing the 30 stolen-base mark, Barry made history on September 22 vs. St. Louis, when he blasted his 30th homer of the season in the 5th inning.

In the late 1990s the Reds began to focus on developing younger players, and suffered through a rebuilding period. Veteran Jack McKeon was hired to guide these new-look Reds. Bowden added Sean Casey, Dmitri Young, Danny Graves, Denny Neagle, Michael Tucker, Mike

Cameron and Greg Vaughn in trades and the farm system produced Pokey Reese, Aaron Boone, Brett Tomko and Scott Williamson. With the addition of free agents Pete Harnsich and Steve Parris, the Reds had assembled a team that surprised the experts by winning 96 games and competing for the Central Division title. Although the Reds lost to the Mets in a one-game playoff for a post-season berth, the young talent on the team and in the farm system has the club well-positioned for the Reds' third century of baseball.

2000 and Beyond

For Reds fans, the new century dawned on February 10, 2000, when the Reds announced the signing of Ken Griffey Jr., one of the most sought-after free agents in baseball history, to a nine-year contract. The trade for the

Cincinnati native - who had frolicked on the riverfront turf as a youngster with his father, Ken Sr. - generated enormous enthusiasm on the part of Reds fans. Griffey's arrival helped stir talk of a pennant in 2000, and although Griffey had a fine year, leading the team in home runs (40) and RBI (118), the Reds failed to catch St. Louis and finished second in the NL Central. Their 85 wins ranked sixth out of the NL's 16 clubs.

Three days after the conclusion of the 2000 season, on October 4, groundbreaking ceremonies for the new Great American Ball Park took place beyond the center-field wall of Cinergy Field. Commissioner Bud Selig was among those in attendance. The massive construction project brought about several changes for Cinergy Field, including the removal of thousands of outfield seats, the opening of the seating "bowl" in center field, a new outfield wall configuration and the installation of a natural grass field, the first in Cincinnati since the days of Crosley Field. As the framework of the new ballpark rises beyond the center-field wall, the present and future of the Reds will be on display.

The City of Cincinnati

The Ohio River Valley, where Cincinnati and Northern Kentucky are situated, has long been known as a land of special promise. For centuries, various American Indian tribes revered the lush valley where several smaller rivers join the Ohio River to be sacred hunting grounds. Indians from throughout the Midwest would travel to what is now Cincinnati to hunt the huge herds of bison and other game that frequented the area.

Word soon spread about this "promised land" as European immigrants began to travel west during the last half of the 18th century. Part of the Northwest Territory ceded to the United States in 1783 by England, the area where Cincinnati now exists was considered among the most fertile land on the continent.

As the only spot along the Ohio River where the steep hills did not come to the river's banks, the area that would become Cincinnati was the natural setting for a great city.

On December 28, 1788, a group of hearty pioneers beached their riverboats directly across the Ohio River from the mouth of Kentucky's Licking River, and Cincinnati was born.

After the Indian threat was ended through fierce fighting in the mid-1790s, Cincinnati and Northern Kentucky grew rapidly. Its dense forests and fertile river valley soil provided area settlers with ample natural resources. The superior river transportation network created by the convergence of the Ohio, Licking and Great Miami rivers also allowed local surpluses to be shipped to New Orleans for nationwide distribution.

Cincinnati's agricultural riches quickly turned this booming and boisterous river town into the nation's top hog market, earning the city the nickname "Porkopolis" by 1820. A wave of German immigrants also made Cincinnati equally famous for its tasty beer and German heritage, as it became the nation's top beer producing (and consuming) city.

During the riverboat heydays of the 19th century, Cincinnati was among the nation's largest and busiest inland water ports. A major stop for commercial and pleasure vessels traveling down the Ohio to the Mississippi River and New Orleans, Cincinnati's big-city sophistication rivaled that of almost any other city. Its sophistication and growth was so renown that shortly after the Civil War, the *New York Times* declared Cincinnati to possess the most metropolitan atmosphere of any city outside New York.

So rapid was the growth of Cincinnati that by 1860, it was the sixth-largest U.S. city and the unquestioned manufacturing capital of the nation. When *New York Tribune* editor Horace Greeley wrote his famous lines in 1850, "Go West young man, and grow up with the country," he was talking about the Midwest and in particular, Cincinnati. Greeley also predicted that, "within 50 years, Cincinnati will become the greatest city on earth."

Such fame, fortune and location prompted many influential people to advocate relocating the U.S. capital to

The City of Cincinnati, continued

Cincinnati as early as 1830. The movement culminated in 1870 with an actual convention in Cincinnati on moving the nation's capital, where nothing was accomplished and the movement died.

When the riverboat era faded into the railroad age in the late 19th century, Cincinnati also relinquished its title as the center of westward migration and growth. Although it remained a prosperous city, gone forever was Cincinnati's dream of becoming the world's greatest metropolis as giants such as Chicago and St. Louis mushroomed on the western frontier.

As other cities were expanding in the pioneer spirit Cincinnati long discarded, the city matured.

The "Queen City of the West" (a title made popular by poet Henry Wadsworth Longfellow in 1854) embraced its dominant German culture by creating large annual cultural festivals and erecting nationally famous cultural institutions like Music Hall, Cincinnati Art Museum and the Cincinnati Art Academy in the late 1800s.

Cincinnati had slipped from sixth to ninth place in population by 1900, but it remained one of the nation's most important cities. A world manufacturing leader in numerous industries such as printing materials, shoes, leather goods, machine tools and soap, Greater Cincinnati's labor force paid one-sixth of the first national tax bill when federal income tax began in 1916.

The city gained the world's spotlight once again in the early 1930s when Cincinnati had the distinction of opening the world's largest municipal airport (Lunken Airport) and train terminal (Union Terminal). With its manufacturing clout in place, Cincinnati played a key role in the World War II effort

by producing fighter plane engines and other critical materials.

Today, Greater Cincinnati finds itself a thriving, mid-sized city that continues to be a leader in many business and cultural affairs. Cincinnati is among the country's fastest growing cities, and it is attracting world attention with its rapidly expanding airport and unusually strong foreign export market.

Always a city with tremendous community pride, Cincinnati grandly observed its 200th birthday in 1988 with a year-long celebration that saw citizens volunteer more than one million hours and \$69 million. As part of the celebration, an expansive city park was dedicated at the spot where the city founders landed.

In 2000, the city went "hog wild" with its display of fiberglass pigs. Described as the "Big Pig Gig," hundreds of individual and corporate sponsors anteed up to display pigs of all sizes, shapes and distinctions. The event, which raised money for charity, was a huge success and a lot of fun.

- The first piece of airmail in the United States arrived in Cincinnati - a postal card addressed to Miss Grace A. Wendt from W.W. Dickson, post office Inspector in charge in New York City, which read: "This is the first piece of mail ever dispatched by aeroplane in the United States. With best wishes for your welfare and prosperity, I am yours truly, W.W. Dickson".

Reds' Uniforms

History of the Reds' uniform, courtesy of Mark Okkonen.

The Reds began the 1900 season with the oldest tradition in professional baseball, dating back to 1869. Their uniforms were basically a continuation of the 1890s, white at home, and dark, musty blue on the road. The caps were the standard close-fitting round style with a short bill. Red piping was used on the seams leading up to the red top button and around the base of the crown. A red "C" was also added to the front of the cap around 1900.

The home uniform in the first decade of the 1900s was always white and displayed either "CINCINNATI" or variations of a capital "C" on the left breast - a precursor of the standard emblem of future decades.

On the road, the city name "CINCINNATI" was continued on the chest in red capital letters on the gray or blue uniforms. By 1908, the standard block letters were replaced by a fancier style, and the cap was a solid red with white piping and no "C." This cap was also worn at home along with a solid red collar. In 1909, the darker blue road uniform returned, but instead of "CINCINNATI," a large fancy-style red "C" was positioned on the left breast as well as a smaller "C" on the sleeves and on the cap - a sort of "reverse" image of the previous white home uniform.

After 1910, several notable new trends in uniform design had become fashionable - the standard shirt collar was replaced by a short stand-up "cadet" style and subsequently by a tapered collar extension or no collar at all. Stirrup-type outer stockings were used in place of the one-piece color stockings - certainly a practical improvement in terms of daily laundering requirements.

Pin-striped fabrics in various widths and color combinations became common. Team nicknames were being accepted as "official" by the clubs and began to appear on the uniform jerseys. The very first version of the now-famous team logo made its appearance in 1911; the name "REDS" inside an ornate, scalloped "wishbone-style" capital "C." Red striping was also introduced around the button lapel and along the edge of the "cadet" style collar. A smaller capital "C" was placed on the sleeve and the home cap was solid red. By 1913, the "cadet" collar was modified and the C-REDS logo was also included on the left breast of the darker road suits. This combination of red-on-blue has to be one of the homeliest outfits ever worn by a baseball team.

Within a few years, good taste must have prevailed because the road uniforms reverted to a more conventional gray version of the home whites. Those dark blue road uniforms never again appeared on a Red player. By the end of the decade, the Reds logo had been established as a standard design and remained basically unaltered through the entire decade of the 20s. About the only features that changed at all during this long run of uniform design were to be the alternate use of pin-striped fabrics, evolutionary modification to the collar shape and trim and the return to a dark solid cap in the late 20s.

The team's first World Championship in 1919 (tainted though it was by the infamous "Black Sox" scandal) must have convinced club management that they had a "winning" year. The uniforms for most Major League teams during the "roaring 20s" were, likewise, generally plain and conservative. Oddly enough, it took a stock market crash and the onset of a prolonged depression to trigger a new flurry of ideas and colorful innovations in baseball uniforms.

By 1930, the Reds, like most of the other clubs, were breaking out of the rut of repetitive, plain uniforms. Pinstripes were "out", and white or gray cap crowns with a solid red bill were "in." The name "CINCINNATI" was restored to the gray road jerseys in red capital letters with a thin navy outline piping.

By the mid-30s, combinations of blue and white stripes were added to the solid red of the stockings, and the piping trim in the uniform was embellished by multiple beads and combinations of red and navy blue. In 1935, "REDS" was added to the sleeves of the road jersey and marked

one of the very few occasions when the full team name (city plus nickname) was displayed on any Major League uniform.

By 1936, the predominance of the color red on the uniform trimmings had given way to equal billing for navy blue. The cap bill, the undersweaters, the socks, and even the C-REDS logo incorporated navy. The overall appearance was brighter, in keeping with the multi-color trimmings of many of the other club uniforms. This inclusion of navy blue was to remain an integral part of the color scheme for the next 20 years.

Cincinnati introduced night baseball to the world in 1935. The following season, they experimented with a radically different uniform design referred to as the "Palm Beach" uniforms. All piping trim was removed and the C-REDS emblem was replaced by a REDS in script lettering on the left breast of the jersey. They wore this uniform only occasionally in 1936 and 1937 and, for some night games, they even included solid red trousers.

This orgy of new graphics and extra color trimmings peaked out by 1938. The "CINCINNATI" on the road grays was still done in fancy-style block letters, but the socks were no longer multi-striped and the piping trim was somewhat toned down. The white or gray cap crown was replaced by solid navy with a red bill and a red "wishbone C."

For the 1939 season, austerity made a dramatic comeback on the Reds uniforms. All piping was eliminated, the socks were a plain half-red, half-navy combination and "CINCINNATI" on the road grays was restored to plain block capital letters - all red with no outline trim.

The navy blue background and white trim were retained on the C-REDS emblem on the home whites and remained constant through the mid-50s.

Could the superstition of once again not wanting to alter a "winner" be the reason why this basic uniform motif remained unchanged for the next 16 years? A second and third pennant in 1939-40, plus a "bona fide" World Series Championship in '40, would lend credence to this supposition. This long run of stable, conservative uniforms climaxed in the early 50s. The navy blue on the socks and sweaters was gone and the combination red and navy cap was replaced by your basic solid navy cap. The pendulum of design was ready to wing back to something more adventurous.

The anti-communist hysteria of the McCarthy era contributed to what is, in retrospect, an embarrassingly silly decision on the part of the Cincinnati Baseball Club.

After nearly 80 years of being identified as the Reds or Red Stockings - a fact which had absolutely no political or international overtones, and is as purely and innocently American as hotdogs and Crackerjacks - it was determined that the name REDS was detrimental to the organization and to baseball.

To their credit, a thread of tradition was retained by compromising on a harmless corruption of the team nickname, henceforth, they were to be called the REDLEGS.

In cadence with this new image, the team uniforms for 1956 underwent the most drastic overhaul in nearly 20 years. Navy blue was abandoned entirely as red became the sole color of the uniform trim (another plus for the salvation of long tradition). The name REDS was no longer displayed on the home uniforms after 45 years.

The most novel feature (not a first - the Cubs were the originals in 1940) was the sleeveless vest jersey. The stockings were still red, but with narrow white stripes. The caps were solid red with a white "wishbone C" and even the belts were red. The undershirt sleeves were solid red (when not cut off at the shoulder a la Ted Kluszewski). The gray road uniforms were identical to the home whites except for the baseball head cartoon face ("Old Red") which replaced the wishbone C on the left breast. The sleeveless vest won approval from the players (the Pirates "followed suit" in '57) and remained a uniform feature until the mid-60s.

As if to further underscore the all-scarlet theme, all red stockings were restored and red pinstripes were added to the home whites the following year. The solid red cap was also replaced by a white or gray cap crown (to match the jersey) for 1957. A touch of navy blue reappeared in 1961

as piping rim on the vest sleeves holes and around the "C" on the cap. Also, as if to signify the end of the "Redlegs" era, a modified oval version of the C-REDS emblem returned to the home jersey front (with a navy blue background as in the last version.)

The city name "CINCINNATI" was also restored on the road gray uniform in arched red capital letters with a thin navy outline. The sleeveless vest era produced a fourth pennant (1961), but this time the uniform design was not destined for a long run.

By the mid-60s, a couple of future Cincinnati legends had arrived (Pete Rose and Johnny Bench) and the nucleus of the future Big Red Machine had its beginnings.

The sleeveless jersey was displaced by a conventional short-sleeved model, and navy blue once again was eliminated as a second color. The gray road uniform was basically a revival of the early 50s, except the cap was now solid red instead of navy, and a uniform number appeared on the jersey front.

The first years of the revival of the short-sleeved home jersey retained the red pinstripes, but by 1970, (Sparky Anderson's first pennant winner and the inaugural season of Riverfront Stadium) the home uniform was plain white.

For 1972, Cincinnati joined the rest of the majors in adopting the new double-knit fabric uniform with its revolutionary features. Lighter, cooler, more comfortable and easier to clean - it was the uniform of the future - and the future for Cincinnati baseball spelled glory and championships.

The famous C-REDS emblem was retained as was the all-red trim motif. But with the new built-in sash belt and pull-over jersey, buttons and belts were no longer needed. Red and white striping trim was added to the sleeve ends and collar as well as on the new sash belt.

In spring training of 1978, the Reds jolted the baseball world by stepping onto the field with all-green uniforms for an exhibition game on March 17 (St. Patrick's Day, of course). After a century of basically red-trimmed uniforms, this novelty version had the same curious visual shock value as Andy Warhol's non-red Coca-Cola art. It was all in fun, and the fans loved it. These hybrid uniforms were afterwards auctioned off for charity, and have since become prized collector's items.

The Reds continued their basic white uniform through most of the 1980s, although in 1986, added an optional solid red jersey with "CINCINNATI" spelled out. The Reds added stripes down both sides of the trousers in 1988, and this would be the look for the next several years, including the 1990 World Championship club.

In 1993, the club reintroduced pinstripes, belts and a sleeveless home vest. Both the home white and road gray jersey featured red pinstripes on tops and trousers. The home sleeveless jersey featured the traditional Reds C-LOGO on the left breast, with the uniform number adjacent on the right breast. A solid red undershirt, both short sleeve and long, featured a solid white "wishbone C" logo on the upper-left portion of the sleeve.

The home cap in 1993 also underwent a distinct change. The white cap featured red pinstripes and a solid red bill with a solid red "wishbone C" logo. The road cap remained solid red with a white "wishbone C" logo.

The Reds would not make another major uniform change until the 1999 season. The addition of black to the uniform was the most distinctive change. Black was added as a drop-shadow to the traditional "C-LOG", and was also featured on the bill of the home cap (solid red with a white wishbone C and black drop-shadow), and as the base color for the road cap (red bill with a white wishbone C and black drop-shadow).

The Reds also introduced the "Running Man" logo into the uniform. Both a solid red and solid black undershirt featured the "Running Man" on the upper portion of the left sleeve. Player names and uniform numbers featured solid red letters and numbers, with white and black drop-shadows.

The 2000 season saw the Reds replace the "Running Man" logo on the left sleeve of the undershirt with a new "Running Man" logo that incorporated the anniversary of the club's 10th and 25th World Series titles.

Cincinnati Reds' Retired Numbers

1 Fred Hutchinson

Born: August 12, 1919 at Seattle, WA

Died: November 12, 1964 at Bradenton, FL

Number retired in 1965

Fred Hutchinson was a popular and successful manager of the Cincinnati Reds. Hutch's 466 managerial victories and .543 winning percentage rank him among the best managers ever to wear a Cincinnati uniform. The Reds exceeded the 90-win mark in three of his six seasons at the helm, and in 1961, they took the National League pennant.

But the joy of a first-place finish was matched only three years later by the sadness of Hutch's illness and early death. The courage, class and determination that Fred exemplified all his life were all the more evident during his battle with cancer. Hutch stepped down as Reds manager in 1964, and died that November.

The following year, Hutch's uniform (#1) became the first one in Cincinnati Reds history to be retired.

Today, Fred Hutchinson's legacy lives on in the world-renowned Cancer Research Center that bears his name, and in The Hutch Award. It is given annually to a Major League ballplayer who "best exemplifies the character and fighting spirit of the late Fred Hutchinson...who overcomes any form of adversity." Past winners include Ray Knight, Ron Oester, Eric Davis, Bobby Tolan, Johnny Bench and Sean Casey.

5 Johnny Bench

Born: December 7, 1947 at Oklahoma City, OK

Number Retired: August 11, 1984

Cincinnati's uniform #5 belongs to perhaps the greatest catcher to ever play in the Major Leagues. The standard by which all other catchers are measured, Johnny Bench ended his 17-year storied career in 1983 after earning two MVP Awards, 10 Gold Gloves and 14 trips to the All-Star Game. Bench was inducted into the National Baseball Hall of Fame in 1989.

Bench began his career with a bang, earning Rookie-of-the-Year honors in 1968. Able to control a game on both sides of the plate, he ended his career with a .267 average and 389 homers (327 as a catcher, which stands as a record for NL catchers).

On the Reds' all-time batting list, Bench ranks first in homers and RBI (1,376), second in runs (1,091), extra-base hits (794) and total bases (3,644), third in hits (2,048) and doubles (381).

Johnny appeared in 22 National League Championship Series games and 23 World Series games. Bench earned World Series MVP honors in 1976 when the Reds swept the NY Yankees, four games to none. He twice led the league in home runs (1970 with 45, and 1972 with 40), and three times in RBI (1970 with 148, 1972 with 125, and 1974 with 129).

One Perfect Night

On September 16, 1988, LHP Tom Browning tossed the only perfect game in Cincinnati Reds history, when he retired all 27 batters faced in a 1-0 Reds' victory over the Los Angeles Dodgers.

It was only the 14th perfect game (9.0 innings or more) in Major League history, just the 3rd in modern National League history, and the first no-hitter by a Red since Tom Seaver blanked the Cardinals on June 16, 1978 (4-0).

Browning's perfect game capped off an incredible season in which he posted an 18-5 record, including a 16-2 mark after June 6.

Cincinnati vs. New York
October 6-10, 1973
Mets 3 - Reds 2

Game 1 @ Cin. - Reds 2 - Mets 1: Tom Seaver set a league playoff record by striking out 13 Reds, but after seven superb scoreless innings, he allowed a solo homer to Pete Rose in the 8th, and another solo blast to Johnny Bench in the 9th.

Game 2 @ Cin. - Mets 5 - Reds 0: Jon Matlack pitched a two-hitter and struck out nine batters, as the Reds were blanked for the first time in NLCS play.

Game 3 @ NY - Mets 9 - Reds 2: Rusty Staub homered in his first two times to the plate to lead Jerry Koosman to an easy 9-2 victory ... The game was marred twice by bench-clearing brawls, triggered when Pete Rose slid into Bud Harrelson at second base in the 5th.

Game 4 @ NY - Reds 2 - Mets 1: Pete Rose hit a home run off Harry Parker in the 12th inning, to give the Reds a 2-1 victory, evening the series at 2-2 ... Tony Perez tied the game at 1-1 in the 7th with his first homer of the NLCS.

Game 5 @ NY - Mets 7 - Reds 2: Tom Seaver, a victim of non-support most of the regular season, was backed by a 13-hit attack as he out-pitched Cincinnati ace Jack Billingham ... The Mets broke the game open with a four-run 5th inning en route to their second pennant.

former Federal Judge Kenesaw Mountain Landis, who was hired to clean up America's growing favorite pastime.

The supposed involvement of certain players was something of a mystery in its own right. Weaver, who had known about the conspiracy from the beginning, refused

to take part and batted .324 in the Series. He was banned for not exposing his teammates.

Jackson, who admitted taking \$5,000, batted .375 with a homer and 6 RBI.

But, there were those who were as guilty as sin.

Risberg committed four errors and

batted .080, but did not receive a cent. Gandil - the organizer of the scam - on the other hand, walked away with \$30,000 and immediately announced his retirement. Cicotte lost two of his three starts and earned a \$10,000 payday. He later told the grand jury it was not worth the effort.

Cincinnati vs. Oakland
October 14-22, 1972
A's 4 - Reds 3

Game 1 @ Cin. - A's 3 - Reds 2: Gene Tenace made World Series history by becoming the first player to hit home runs in his first two Series at-bats ... Tenace drove in all three A's runs, filling the power void created by an injury to slugger Reggie Jackson.

Game 2 @ Cin. - A's 2 - Reds 1: Joe Rudi was the hero for the A's in Game 2, as he belted a solo homer and made a game-saving catch in left field ... Catfish Hunter tossed 8.2 innings, allowing just one run on six hits, as the game was again played in front of a record setting crowd - 53,224.

Game 3 @ Oak. - Reds 1 - A's 0: The Reds got the game's only run in the 7th inning, when Cesar Geronimo singled home Tony Perez ... Jack Billingham pitched 8.0 shutout innings, and the Reds cut the A's series lead in half.

Game 4 @ Oak. - A's 3 - Reds 2: In the fourth consecutive one-run nail biter, the A's rallied for two runs in the 9th inning on four straight singles - three by pinch-hitters - to take a commanding 3-1 lead in the Series ... Don Gullett pitched 7.0 innings for the Reds, allowing just one run on five hits.

Game 5 @ Oak. - Reds 5 - A's 4: Pete Rose started the scoring with a first-pitch homer in the 1st, then ended the scoring with an RBI single in the 9th ... Leading 5-4 in the bottom of the 9th, Joe Morgan secured the win by throwing out Blue Moon Odom at the plate as the potential tying run.

History of the Draft

The game of baseball was at a crossroads in 1964. The game's wealthier teams were buying up amateur talent at such a staggering pace, that the competitive balance of the game was in jeopardy.

The more clubs spent foolishly on raw, unproven amateur talent, the less there became to assist a sagging player-development system. Once rich and self-sustaining, baseball's minor-league clubs had dwindled from 460 teams in 1949, to just 121 clubs by 1964.

By overspending on amateur talent and underspending to develop that talent, baseball was cutting its own throat.

That's why the 1964 season ushered in a new way for clubs to seek out talent. Some of the game's highest-ranking officials instituted a much-debated and much-awaited amateur draft system.

The purpose of the draft would be to stop the upward spiral of excessive bonuses paid to amateurs and to more evenly distribute the available talent to Major League clubs.

Baseball's "free agent" draft would function in a manner similar to that of the National Football League and National Basketball League drafts.

All eligible talent was placed in a pool with every team making a selection. When a team picked a player, it gained exclusive rights to negotiate with that player. In 1965, the Oakland Athletics made Rick Monday the game's first drafted player.

When the draft was first introduced, clubs selected three times a year (January 15, June 1, and September 1), and were only allowed to draft permanent residents of the United States.

The entire January draft and second phase of the June draft were discontinued following the 1986 season, when all previously drafted players were included with newly eligible players in the June draft.

2000 Season Recaps

Louisville RiverBats - AAA

(71-73, 3rd place in the International League West Division)

At 71-73, the RiverBats finished in third place in the West Division of the International League, 10.0 games behind Indianapolis (Brewers). It was their first year as a Reds affiliate and also their first year at the new Louisville Slugger Field. In his 11th season as a minor-league manager, **Dave Miley** suffered his first losing season. His lifetime record now stands at 890-669 (.571).

Several players had standout seasons, including **INF Chris Sexton**, who finished third in the International League with a .324 BA and .416 OBP. **1b/OF Brooks Kieschnick** ranked among the league leaders in RBI (5th, 90), extra-base hits (5th, 60) and doubles (T5th, 35). Sexton and Kieschnick were both selected to play in the Triple-A All-Star Game in Rochester, NY. Also selected was **C Jason LaRue**, who was unable to play due to the birth of his first child.

OF Brady Clark batted over .300 for the third time in four professional seasons as he hit .304 with 16 HR and 78 RBI in 115 games. Clark led the International League with 41 doubles and 63 extra-base hits. He was also tied for third in the league with 90 runs scored.

The RiverBats' top starter was **RHP Larry Luebbers**, who went 7-6 with a 3.53 ERA in 18 games (17 starts). In a 5-0 win on 5/14 at Charlotte (White Sox), he threw a 7-inning no-hitter. It was the first no-hitter in Louisville franchise history.

(1st Half: 40-30; 2nd Half: 30-38)

They went 40-30 in the first half of the season, finishing in second place in the West Division of the Southern League, 3.0 games behind Birmingham (White Sox). Broussard and Miller did not participate in the game due to injury.

Gulf Coast League Reds - Rookie

(14-41, 5th place in the Gulf Coast League Southern Division)

The Reds went 14-41 under first-year manager **Luis Quinones**, finishing in fifth place in the Southern Division of the Gulf Coast League, 23.5 games behind the Rangers. After a 5-3 start, they went 9-38 over their last 47 games, including three 9-game losing streaks.

For most of the season, **3b Juan Llamas** was the Reds' top offensive threat. He led the team with a .321 batting average before a knee injury caused him to miss over a month of action. The injury came on 7/6 against the Twins, when he and **OF Odis Dolton** collided while trying to catch a fly ball. Llamas would return to the lineup and finish at .299 with 1 HR and 11 RBI to earn a promotion to Billings in late August.

OF Dany Morban led the team with 22 RBI. His 8 triples led the Gulf Coast League and 11 stolen bases tied **OF Francisco Solano** for the team lead.

RHP Frank Bludau was the Reds' top pitcher with a 1.59 ERA in 10 games (3 starts). His performance eventually led to a promotion to Dayton late in the season. The Reds also received quality pitching from **RHP Jeff Schachleiter**. After struggling at Billings, the 18th-round pick out of Colerain High School posted a 2.45 ERA in 6 games (4 starts) with the Reds.

Reds Broadcasters

Marty Brenneman and Joe Nuxhall return for their 28th season together on the Reds Radio Network. The Reds Radio Network is one of the largest in professional sports, with 60 affiliates in five states. The flagship station is WLW (AM 700) in Cincinnati. All regular season games are aired on WLW.

Reds radio announcer **Marty Brenneman** received the Ford C. Frick Award on July 23, 2000, at the National Baseball Hall of Fame in Cooperstown, NY. The award is presented each year by the National Baseball Hall of Fame to a broadcaster "for major contributions to the game of baseball." Brenneman and Red Barber (WSAI, 1934-38) are the only Reds announcers ever to receive the Hall of Fame's prestigious broadcasting award. He is in his 37th year as a broadcaster. Brenneman joined the Reds' radio team in 1974 and for the past 27 seasons has shared the 700 WLW Radio booth with Reds Hall of Fame pitcher Joe Nuxhall.

For the next four seasons, FOX Sports Net will hold the exclusive local cable and telecast rights for Cincinnati Reds baseball. FOX Sports Net will cablecast 85 games in 2001.

George Grande, a 33-year veteran of the broadcasting business, has been the play-by-play voice on Reds TV since 1993. A native of New Haven, CT, George has covered Major League Baseball since 1965. He also anchored the first-ever ESPN SportsCenter telecast on September 7, 1979.

Major League Baseball Rules of Interest

Calculating the "Magic Number": Determine the number of games to be played by the team in the lead. Add one to that number. Subtract from that figure the number of games ahead in the loss column from the closest opponent.

Determining Earned Run Average: Multiply earned runs by nine, then divide total by innings pitched.

Determining Batting Average: Divide total hits by total at-bats.

Determine Slugging Percentage: Divide the total bases of all safe hits by the total number of at-bats.

Determining On-Base Percentage: Divide hits + walks + hit-by-pitch, by at-bats + walks, + hit-by-pitch + sac flies.

Determining Fielding Percentage: Divide the total putouts and assists by the total of putouts, assists and errors.

The Winning Pitcher: The starting pitcher will be credited with the win only if the pitcher has pitched at least five complete innings and his team not only is in the lead when he is replaced, but remains in the lead the remainder of the game. EXCEPTION: The "must-pitch-five-complete-innings" rule in respect to the starting pitcher shall be in effect for all games of six or more innings. In a five-inning game, credit the starting pitcher with a game won

only if he has pitched at least four complete innings and his team not only is in the lead when he is replaced, but remains in the lead the remainder of the game. When the starting pitcher does not meet the preceding criteria and more than one relief pitcher is used, the victory shall be awarded on the following basis:

- (1) When, during the tenure of the starting pitcher, the winning team assumes the lead and maintains it to the finish of the game, credit the victory to the relief pitcher judged by the official scorer to have been the most effective.
- (2) Whenever the score is tied, the game becomes a new contest insofar as the winning and losing pitcher is concerned.
- (3) Once the opposing team assumes the lead, all pitchers who have pitched up to that point are excluded from being credited with the victory except the current pitcher.
- (4) The winning relief pitcher shall be the one who is the pitcher of record when his team assumes the lead and maintains it to the finish of the game. **EXCEPTION:** Do not credit a victory to a relief pitcher who is ineffective in a brief appearance, when a succeeding relief pitcher pitches effectively in helping his team maintain the lead. In such cases, credit the succeeding relief pitcher with the victory.

Earning a Save: Credit a pitcher with a save when he meets all of the following conditions;

- (1) He is the pitcher that finished the game won by his team.
- (2) He is not the winning pitcher.
- (3) He qualifies under one of the following conditions:
 - a. He enters the game with a lead of no more than three runs and pitches for at least one inning, or
 - b. He enters the game, regardless of the count, with the potential tying run either on base, at bat, or on deck (that is, the potential tying run either already on base or is one of the first two batters he faces), or
 - c. He pitches effectively for at least three innings.

Assists: An assist shall be credited to each fielder who throws or deflects a batted or thrown ball in such a way that a putout results, or would have resulted except for a subsequent error by a fielder. Only one assist and no more shall be credited to each fielder who throws or deflects the ball in a run-down play which results in a putout, or would have resulted in a putout, except for a subsequent error.

Consecutive Game Hitting Streak: A consecutive game hitting streak shall not be terminated if the player's plate appearance(s) results in a base on balls, hit batter, defensive interference or sac bunt. The streak shall terminate if the player has a sac fly and no hit. Consecutive game hitting streaks do not carry over from season to season.

Consecutive Game Playing Streak: A consecutive game playing streak shall be extended if the player plays one-half inning on defense or if he completes a time at bat by reaching base or being put out. A pinch-running appearance shall not extend the streak. If a player is ejected from the game by an umpire before he can comply with the requirement of this rule, the streak shall continue.

Suspended Games: All performance in the completion of a suspended game shall be considered as occurring on the original date of the game.

Rain Delays: Once a game has been temporarily delayed by rain, NL umpires have been instructed to wait at least one hour and 15 minutes before calling the game. They shall wait at least 45 minutes for a second delay and 30 minutes for all subsequent delays.

National League Curfew: There is no curfew in the National League. The game is in the hands of the umpires once it has started.

Major League Year: 172 days of service time constitutes a full year in the Major Leagues.

Rookie Status at the Major League Level: To be considered a rookie, a player must not have more than 130 at-bats, or 50 innings-pitched in the Major Leagues during a previous season or seasons, nor more than 45 days on a Major League roster during the Major League 25-player limit (excluding time in the military).

Waiver Regulations: From 30 days after the start of the season, players are available for claiming off waivers in reverse order of standings, at the time waivers expire. Otherwise, players are available for claiming off waivers in reverse order of standings at the close of the preceding season. With respect to trades, no waivers are necessary from 5 p.m. (ET) the day after the scheduled end of the regular season through July 31. Waivers are necessary from August 1 through the day after the scheduled end of the regular season.

AC Joint (Acromioclavicular joint): Joint of the shoulder where acromion process of the scapula and the distal end of the clavicle meet; most shoulder separations occur at this point.

Abduct: Movement of any extremity away from the midline of the body. This action is achieved by an abductor muscle.

Abrasion: Any injury which rubs off the surface of the skin.

Abscess: An infection which produces pus; can be the result of a blister, callus, penetrating wound or laceration.

Adhesion: Abnormal adherence of collagen fibers to surrounding structures during immobilization following trauma or as a complication of surgery which restricts normal elasticity of the structures involved.

Aerobic: Exercise in which energy needed is supplied by oxygen inspired and is required for sustained periods of vigorous exercise with a continually high pulse rate.

Anabolic Steroids: Steroids that promote tissue growth by creating protein in an attempt to enhance muscle growth. The main anabolic steroid is testosterone (male sex hormones).

Anaerobic: Exercise without the use of oxygen as an energy source; short bursts of vigorous exercise.

Anaphylactic Shock: Shock that is caused by an allergic reaction.

Anterior Cruciate Ligament (ACL): A primary stabilizing ligament within the center of the knee joint that prevents hyperextension and excessive rotation of the joint. A complete tear of the ACL necessitating reconstruction could require up to 12 months of rehabilitation.

Anterior Talofibular Ligament: A ligament of the ankle that connects the fibula (lateral ankle bone) to the talus. This ligament is often times subject to sprain.

Anti-Inflammatory: Any agent which prevents inflammation, such as aspirin or ibuprofen.

Arteriogram: A film demonstrating arteries after injection of a dye.

Arthrogram: X-ray technique for joints using air and/or dye injected into the affected area; useful in diagnosing meniscus tears of the knee and rotator cuff tears of the shoulder.

Arthroscope: An instrument used to visualize the interior of a joint cavity.

Arthroscopy: A surgical examination of the internal structures of a joint by means for viewing through an arthroscope. An arthroscopic procedure can be used to remove or repair damaged tissue or as a diagnostic procedure in order to inspect the extent of any damage or confirm a diagnosis.

Aspiration: The withdrawal of fluid from a body cavity by means of a suction or siphonage apparatus, such as a syringe.

Asymptomatic: Without symptoms.

Atrophy: To shrivel or shrink from disuse, as in muscular atrophy.

Avascular Necrosis: Death of a part due to lack of circulation.

Avascularity: When controlling bleeding.

Avulsion: The tearing away, forcibly, of a part or structure.

Axilla: The armpit.

Bennett's Fracture: A fracture and dislocation of the base of the first metacarpal, the thumb.

Blowout Fracture: A fracture of the cavity containing the eyeball and its associated muscles that can be a result of a direct blow to the eye or cheek.

Bone Scan: An imaging procedure in which a radioactive-labelled substance is injected into the body to determine the status of a bone injury. If the radioactive substance is taken up by the bone at the injury site, the injury will show as a "hot spot" on the scan image. The bone scan is particularly useful in the diagnosis of stress fractures.

Brachial Plexus: Network of nerves originating from the cervical vertebrae and running down to the shoulder, arm, hand and fingers.

Bruise: A discoloration of the skin due to an extravasation of blood into the underlying tissues.

Bursa: A fluid-filled sac that is located in areas where friction is likely to occur, then minimized the friction; for example between a tendon and bone.

C.P.R.: Cardiopulmonary Resuscitation; artificial establishment of circulation of blood and movement of air into the lungs in a pulseless, non-breathing person.

Calcaneofibular Ligament: The ligament that connects the fibula to the calcaneus.

Calf: Large muscle located at the back of the shin that includes the gastrocnemius and the soleus muscles and is connected to the heel by the Achilles tendon.

Capsule: An enclosing structure which surrounds the joint and contains ligaments which stabilize that joint.

Cartilage: Smooth, slippery substance preventing two ends of bones from rubbing together and grating.

CAT Scan: Use of a computer to produce a cross sectional view of the anatomical part being investigated from X-ray data.

Cellulitis: Inflammation of cellular or connective tissue.

Cervical Vertebrae: Group of seven vertebrae located in the neck.

Charley Horse: A contusion or bruise to any muscle resulting in intermuscular bleeding. No other injury should be called a charley horse.

Chondral Fracture: Fracture to the chondral (cartilaginous) surfaces of bone.

Chondromalacia: Roughening of the articular cartilage. Best known for the roughening of the underside of the patella, which can occur in any patellofemoral injury.

Clavicle: The collar bone.

Coccyx: The "tail bone"; a group of four vertebrae that are fused together, located at the terminal end of the spine.

Colles' Fracture: A fracture of the distal end of the radius with the lower end being displaced backward.

Computed Tomography (CT): Method of visualizing the body's soft tissues. Using X-rays with the beam passing repeatedly through the body part, the CT scans while a computer calculates tissue absorption at each point scanned.

Concentric Muscle Contraction: A shortening of the muscle as it develops tension and contracts to move a resistance.

Concussion: Jarring injury of the brain resulting in dysfunction. It can be graded as mild, moderate or severe, depending on loss of consciousness, amnesia and loss of equilibrium.

Congenital: Existing before birth; to be born with.

Conjunctivitis: Inflammation of the membrane lining the eyelids and covering the eyeball.

Connective Tissue Theory: Microscopic tissue trauma, thought to be brought on by explosive or ballistic movements.

Contractures: Abnormal, usually permanent contraction of a muscle due to atrophy of muscle fibers, extensive scar tissue over a joint, or other factors.

- Did you know that in Hall of Fame voting, Bench is the only catcher to be elected in his 1st year of eligibility? Bench is also the last catcher to be elected to the Hall (1989).
- The Reds are one of three teams to ever have two consecutive players elected to the Hall of Fame in their first year of eligibility – Bench in '89 and Morgan in '90.
- Former Reds pitcher Tom Seaver received the highest percentage of votes in the history of Hall of Fame voting, earning 98.84% (425 of 430).
- Pérez is the first Cuban-born player to be elected to the Hall of Fame by the Baseball Writers Association of America.

Notable Artifacts at the Hall of Fame

- Autographed ball from the game of September 27, 1980 (Reds vs. Giants at Candlestick Park) in which Bench tied Bill Dickey's catcher's record of playing in 100 or more games for 13 consecutive seasons.
- Bat used by Joe Morgan to break the record for home runs by a second baseman with #256 on June 24, 1984.
- Cap & sun glasses worn by Edd Roush during 1931 with the Reds.
- More than 20 artifacts representing the career of all-time hit leader Pete Rose.
- Bat and baseball from home run hit by Mark Lewis, who hit the Reds ninth long-ball in a game vs. Philadelphia on September 4, 1999, setting an NL record.
